How many U.S. Congressmen are guilty of Epstein-style PEDO CRIMES? General Mike Flynn states there are many, and they are bent over a barrel by globalist actors

The term "suicided" became popular during the Clinton Crime Family reign in America, where [dozens of associates and whistleblowers](#) seemed to die by "suicide," though the evidence and circumstances pointed to murder. The world also knows that the [perverted freak named Jeffrey Epstein](#) was connected to some very powerful people, including the Clintons. Was he also "suicided" in that jail cell?

Today, the child trafficking and child sex crimes continue, even at the highest levels of

government, and now the Former Director of the Defense Intelligence Agency (DIA), General Mike Flynn, says some of the USA's top legislators are "compromised by globalist actors, due to their trips overseas where they "sleep with children." Are these the same Washington DC politicians that were on Epstein's private planes and private island, molesting and raping underage children and teenagers? If so, who else will be "suicided" that tries to blow the whistle on this demented government and globalist corruption?

"Official" overseas trips for members of House of Representatives and Senate include "spiffs" like having sex with children, according to General Michael Flynn

Yes, *that* General Michael Flynn has blown the whistle on top US politicians from both sides sleeping with children during their overseas "official" trips for what is termed "Congressional Delegation" or "CODEL" trips. Well, the "L" in CODE "L" must stand for lust, and the most perverted kind.

According to Flynn, members of the House and Senate are doing these sick acts on these trips, and are now completely COMPROMISED by the globalists who know, have proof, and hang it over their heads. This means our nation is completely controlled by puppet masters, and the masters of criminally-perverted puppets at that.

General Flynn: "We have the House of Representatives right now that is totally, completely broken" – owned by corporate lobbyists and globalists

In a world of laundering money by the billions, and even trillions, the richest crooks on earth think they can get away with murder, and most of the time, they do. Members of Congress are now being documented for sleeping with underage children during overseas trips using big money to cover it all up. Remember when the real President, Trump, pardoned General Flynn, and the Left went berserk? That's because General Flynn possesses highly sensitive information about super-high-profile individuals in the US government, and he knows these Congressmen are in WAY too deep with the globalists who control them now.

Roger Stone wrote about how much Flynn knows a few years back, saying "Gen Flynn has a list of high level pedophiles the release of which will decimate the Deep State dons #Netherlands." Having sex with minors and having billionaires who basically run the world know about it, well, that bends a US politician over the barrel right there, and there's no telling how much other corruption and control exists over the United States' military, entire economy, bioweapons, printing money, and fixing elections.

This is why the Left likes grooming children so much, so that if these politicians get caught by real authorities, maybe they can make it seem normal or even legalize it before they go up in flames (or get eaten alive by Satan's devil dogs). What videos WERE in Epstein's closet? Was he suicided? Is General Flynn right? Where are all the tens of [thousands of missing children](#) who crossed into America from Mexico over the past 3 years?

These tough and vital questions need real answers, and soon. Thousands of children's lives depend on it. Bookmark [Censored.news](#) to your favorite websites for truth news about filthy dirty politicians that are being censored from mass media while you read this.

Is anyone going to name names? At least tell us which politicians are taking these "trips overseas."
